Website project proposal 1:pretty and clawed

Organization overview

Name: pretty and clawed

Pretty and clawed is a Johannesburg based nail studio founded by Layla who specializes in acrylic and gel nail services. The business is owned by an independent nail technician who provides personalized, high quality nail designs to clients in Johannesburg. The brand has grown through social media where it showcases nail art, client results, and testimonials.

However, there is no dedicated website where future clients can find out about the types of nail and nail designs as well as services offered and their prices or contact Layla as the nail technician professionally.

Developing a website will allow Pretty and Clawed to present its services in a structured and professional manner, making it easier for customers to discover the nail studio and to enquire about nails

Mission: to provide affordable high quality nail services that enhances client's confidence and self-expression.

Vision: to become a recognized and trusted nail brand in Johannesburg with a strong digital presence, and recruit more nail technician currently the business is a sole proprietorship and would love to grow

Target audience:

- Women who love being pretty and clawed
- People who love to get their nails done
- Social media active clients who value trendy nail designs

Website Goals and Objectives

The purpose of the website is to create a professional online presence where customers can learn about the services offered by pretty and clawed

Objectives:

- Increase brand visibility beyond social media
- Allow clients to easily book appointments online
- Showcase nail designs and services professionally
- Provide clear professional about pricing, location, and services

Key performance indicators (KPI)

- Increase in online bookings, growth in website growth, reduced response time for client inquiries and higher client engagement and retention
  Visitors tracking will be implemented via google analytics once the websites is live.
- This will allow us to monitor the number of visitors, page views, and other engagement.

current websites analysis:

currently pretty and clawed doesn't have a dedicated website and relies mainly on Instagram for marketing and communication, as well as pricing and booking appointment

Strengths:

- Strong visual content (nail designs)
- Active engagement with followers
- Clear niche and services offering

Weaknesses:

- No centralized platform for bookings and weak communication
- Important information (prices, services) is not always easily accessible.

Opportunities for improvement:

- Create a structured and user-friendly website
- Add an online booking system
- Provide a detailed pricing and services information

Proposed websites features and functionality

This website will include the following key pages:

- Homepage(index.html) overview of the business and services, featured nail designs
- About page (about.html) background history mission vision team memebers .
- Services page(services.html) list of services (acrylic, gel, nail art and other services offered by pretty and clawed)
- Contact page (contact.html) location, contact details and contact form
- enquiry page (enquiry.html) online booking appointment system

Design and user experience

The website will have a clean, modern and feminine aesthetic using soft colours . it will priorities simplicity, easy navigation and fast loading speed the brand will reflect the brand identity and appeal to the target audience with the right language and bold modern fonts

Technical requirements

The website will be developed using HTML to demonstrate the fundamental structure of web pages
The project will require a domain name and web hosting services

Timelines and milestones

Week 1 -project planning and proposals development

Week 2-content research

Week 3-sitemap and website structure planning
